CYBERAUDIT CLOUD SOLUTIONS

CyberAudit Web is designed to simplify the management of your system. The software is available as a self-hosted application or a cloud-based solution and is fully supported and managed by BLTI.

Our cloud-based solution provides secure web access, no start-up fees, regular software updates, and 24/7 access, making it a cost-effective solution for any customer needs. The cloud-based option only requires the customer to have a computer capable of running a web browser, and BLTI will provide all the login information.

FEATURES

- Dashboard reporting with a management console
- Detailed audit trail
- Set two, three or four-way access
- Denied access email alerts
- Remote key initiation via smart devices
- Key scheduling and expiry
- Set delayed access
- Set group access permissions
- Multiple time zone management
